

*For 2004 TIG Recipients ONLY!*

**2004 TIG CONFERENCE Registration Form**

All 2004 TIG Grant Recipients are required to send one representative from their program to the annual TIG Conference. The TIG Conference is a two and on-half day series of training sessions scheduled for January 26 – 28, 2005 in Austin, Texas. The program is advised to send the person that is primarily responsible for the grant. For instance, if the program is receiving a grant in the Web Site category, it would be appropriate and expected that the program would send the hired Web Content Coordinator.

**All attendees need to be approved by LSC. Please return this form by November 22, 2004, indicating the person that the program would like to send.** Once LSC has approved your submission, we will provide instructions on how to book air travel, reserve hotel accommodations and also supply you with a tentative conference schedule.
